PROBLEM STATEMENT

Inconsistent Plywood Quality

- Variation in plywood quality can affect strength, durability, finish, and overall performance in furniture and interior applications.

Need for Durable Material

- Furniture, interiors, and construction applications require plywood that can withstand regular use while maintaining structural stability and performance.

Difficulty in Maintaining Product Consistency

- Customers require plywood with consistent thickness, strength, surface quality, and workmanship for reliable results across different applications.

Demand for Reliable Supply & Service

- Dealers, contractors, carpenters, furniture makers, and other buyers need dependable product availability and responsive service to complete projects efficiently.

SOLUTION STATEMENT

QUALITY-FOCUSED PLYWOOD SOLUTIONS

Provide plywood solutions focused on consistent quality, strength, durability, and dependable performance for varied customer requirements.

VERSATILE APPLICATION SUPPORT

Offer plywood suitable for furniture, interiors, residential and commercial spaces, and other relevant applications.

CONSISTENT PRODUCT STANDARDS

Focus on maintaining uniform thickness, surface finish, structural stability, and product consistency to support reliable workmanship.

RELIABLE SUPPLY & CUSTOMER SERVICE

Ensure dependable product availability and responsive customer support for dealers, contractors, carpenters, furniture makers, and other buyers.

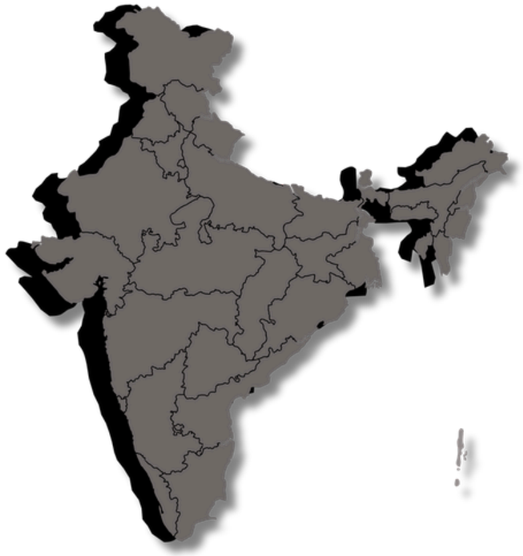
- **Industry Trend:** Growing focus on sustainable, durable and specialized plywood products

CAGR 2025 to 2030: 4.88%



India Market Size

India represents a growing plywood market, supported by urbanization, residential and commercial construction, furniture demand, home renovation, and increasing preference for quality wood-based materials.

- **India Plywood Market 2025:** USD 7.17 Billion
- **Projected Market 2033:** USD 10.61 Billion
- **CAGR 2026 to 2033:** 5.0%
- **Largest End-Use Segment:** Residential
- **Growth Opportunity:** Furniture, interiors, housing and commercial construction
- **Industry Trend:** Increasing demand for durable and quality plywood across residential applications

CAGR 2026 to 2033: 5.0%

MARKET STRATEGY

Dealer Network Expansion

Build strong relationships with plywood dealers, distributors, and retailers to increase market reach.

B2B Partnerships

Target furniture manufacturers, contractors, builders, and interior professionals for consistent business demand.

Quality-Led Positioning

Promote plywood based on strength, durability, reliability, and versatile applications.

Regional Market Expansion

Gradually enter new regional markets through effective distribution and customer-focused sales strategies.

REVENUE MODEL

- JAI SHREE RADHA PLYWOOD PRIVATE LIMITED generates revenue primarily through the sale and distribution of plywood products to dealers, distributors, retailers, furniture manufacturers, contractors, builders, and other business customers.
- The revenue model is driven by product sales across different plywood requirements, bulk and repeat orders, and B2B supply relationships.
- The company can strengthen recurring revenue by developing a reliable dealer and distributor network and building long-term relationships with customers who require plywood regularly for furniture, interior, residential, commercial, and construction applications.
- With increasing market reach, consistent product quality, competitive pricing, and efficient distribution, the business aims to achieve higher sales volumes, repeat purchases, wider customer penetration, and sustainable revenue growth.

BUSINESS MODEL

Plywood Product Sales

Generate revenue through the sale of plywood products for furniture, interiors, residential, commercial, and construction applications.

B2B Supply Network

Build long-term supply relationships with dealers, distributors, retailers, contractors, builders, and furniture manufacturers.

Bulk & Repeat Orders

Drive consistent business through bulk purchasing and recurring plywood requirements from trade and institutional customers.

Distribution Expansion

Increase sales by strengthening distribution channels, expanding into new markets, and developing a wider customer network.

WHY INVEST IN JAI SHREE RADHA PLYWOOD?

Growing Market Opportunity

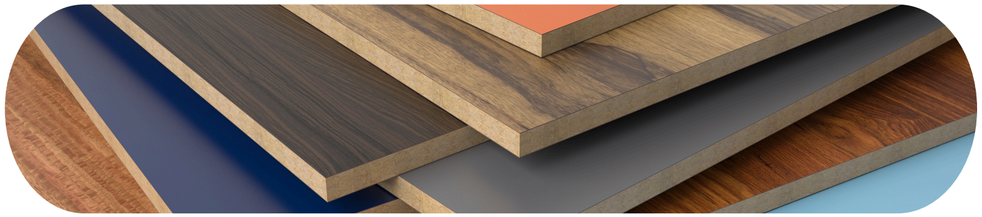
Positioned to benefit from increasing plywood demand across furniture, interiors, residential, commercial, and construction applications.

Quality-Focused Product Offering

Strong focus on delivering durable, reliable, and versatile plywood solutions designed to meet diverse customer requirements.

Scalable Distribution Potential

Opportunity to expand through dealers, distributors, retailers, furniture manufacturers, contractors, and builders, supporting wider market reach and sustainable business growth.



GO-TO-MARKET STRATEGY

Dealer Partnerships

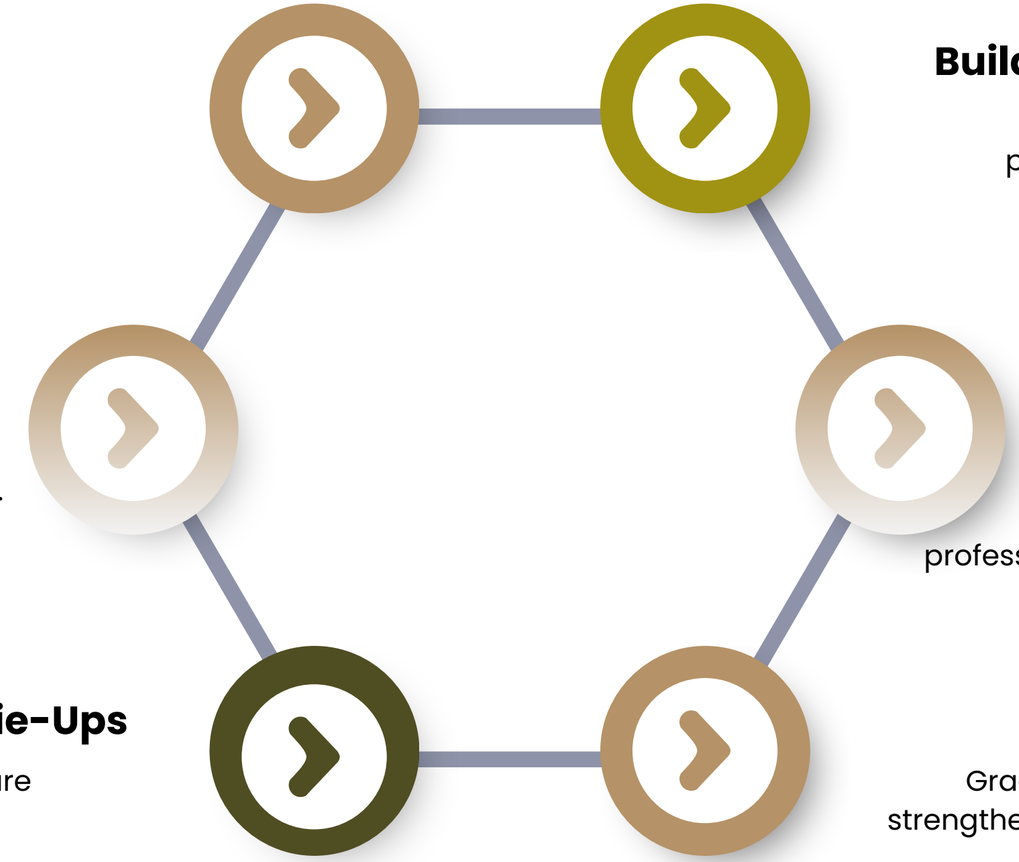
Develop a strong network of plywood dealers and distributors.

Retail Market Reach

Expand product availability through local and regional plywood retailers.

Furniture Manufacturer Tie-Ups

Build direct relationships with furniture manufacturers and workshops.



Builder & Contractor Outreach

Target builders and contractors for project-based plywood requirements.

Interior Professional Network

Connect with interior designers and professionals to generate product demand.

Geographic Expansion

Gradually enter new regional markets by strengthening sales and distribution channels.

AIM TO SCALE UP

- JAI SHREE RADHA PLYWOOD PRIVATE LIMITED aims to scale its plywood business by expanding market reach, strengthening dealer and distributor networks, and building long-term relationships with furniture manufacturers, builders, contractors, retailers, and interior professionals.

- The company seeks to increase product penetration across residential, commercial, furniture, interior, and construction applications while maintaining a strong focus on quality, durability, reliability, and customer satisfaction.

- Through wider distribution, stronger B2B partnerships, improved market visibility, and entry into new regional markets, the company aims to achieve higher sales volumes, repeat business, sustainable revenue growth, and a stronger position in the plywood industry.

FUTURE ROADMAP

01

Market Expansion

Expand the plywood business into new regional and high-potential markets.

02

B2B Customer Expansion

Increase engagement with builders, contractors, furniture manufacturers, and interior professionals.

03

Distribution Network Growth

Strengthen partnerships with dealers, distributors, and retailers.

04

Product Portfolio Development

Expand the plywood product range according to evolving customer and market requirements.

05

Sustainable Business Growth

Focus on higher sales volumes, repeat business, operational efficiency, and long-term revenue growth.
